

Owls

Our vision is to embrace a positive learning environment in which students can learn through a multi-sensory and kinaesthetic approach, within a classroom that offers a stimulating, safe, secure and nurturing environment.

We are committed to giving each student a voice so they can be heard, with the staff team promoting positive interactions and independence. These are developed through meaningful learning where students are given opportunities to explore the social world around them in which to develop and learn.

The staff team in owls believe in students abilities and strive to use positive reinforcements to enhance students to reach their highest potential.

Autumn 2017

Keeping Safe

Owls enjoyed having a paramedic to visit last week. He showed us all his equipment, talked about how to call 999 and let us sit in his rapid response car. He also let us try on some of his work clothes, like his helmet and his coat.
