8 September 2020

Dear Parents

Transport to and from Woodlands Academy from September 2020

We would like to clarify details regarding transport on site from September 2020.

As we are expecting nearly triple the amount of traffic around our school than normal, we have discussed a phased approach that will hopefully help alleviate traffic concerns.

All Local Authority transport has been reinstated and transport providers will be contacting parents if there are any changes to their original timings. We have asked that all Local Authority transport arrive at school for 8.50am and 2.50pm, they will use the main playground area. Most of the providers worked with us through the lockdown period and are aware of this procedure.

With regards to parents, we would like to ask that any walkers/parent drop offs arrive **for 9.15am**, they will be directed by our staff according to where their class is based, i.e. Squirrels and Hedgehogs will be diverted to the front of the school to enter through the blue gates near the garages, all other classes to the main playground. Children will need to be picked up by parents at **2.40pm**, again, Squirrels/Hedgehogs from the front building, all other classes from the main playground. We have a very short space of time before the Local Authority vehicles attend site, so would appreciate that parents are on time.

School staff will be outside to direct, please be patient and follow instructions from members of staff wearing Hi Vis.

We appreciate this is short notice but should you have any concerns/queries, please contact school to discuss.

Yours faithfully

M Hockham
